SOLID POLISHING COMPOUNDS

LIQUID AND CREAM POLISHING COMPOUNDS

BUFFING MOPS

ABRASIVES, FELTS & WHEELS

CLEANING & WIPING ACCESSORIES

For more than a century, the French manufacturer, MERARD, has developed its know-how in the north of Lyon. Drawing upon its textile manufacturing heritage, in the 1950s the company embarked on the manufacture of buffing mops, then liquid and solid polishing compounds.

Present on the traditional and high-end markets, MERARD constantly develops innovating polishing solutions to meet all your requirements, from the simplest to the most demanding.

Across Europe and all over the world, we serve and advise demanding professional customers looking for the very best quality.

**Luxor**
- High-end polishing
- Jewelry and watchmaking

**Essentiel**
- Ultra-versatile
- High performance

**Hyline**
- Animal fat free
- High performance, easy cleaning

**Extrem**
- For complex polishing operations: ceramic, high hardness metals, platinum, PVD, etc.

**Infinite**
- Lapping and flat polishing
OVER ONE CENTURY AT YOUR SERVICE

1911 - Creation of manufacturing company MERARD.

1920 - Registration of the TREFORT, SUPÉRIEUR and INCOMPARABLE, trademarks: quality references.

1960 - The company expands with the launch of buffing mops.

1975 - The distribution of MERARD products in Switzerland is launched.

1982 - Acquisition of the LUCK laboratory in Lyon, a manufacturer specialized in polishing compounds.

1986 - Acquisition of manufacturing companies CUCCI, POLYTEC and SINCRO, leading names in polishing.

1998 - Launch of LUXOR®, dedicated to jewelry and high jewelry.

1999 - Creation of C2P in Switzerland. Reinforcement on the luxury goods and watchmaking markets.

2007 - Launch of HRLINE®, dedicated to flat polishing abrasive compounds.

2014 - Launch of EXTREM dedicated to complex surfaces such as platinum, PVD, ceramic, high hardness metals, etc.

R&D
MERARD develops innovating solutions in its workshops or on the premises of its customers.

MADE IN FRANCE
polishing compounds, cotton and sisal/cotton buffing mops.

DISTRIBUTION
of felts, applied abrasives and accessories.

ADVICE
MERARD places its expertise at your service. Our recommendations are customized and adapted to your objectives and your processes.

The solid polishing compounds are divided into two categories:

- **Expert polishing**: for all highly demanding configurations such as mirror finish, high hardness metals, almost zero roughness, etc.
- **Standard polishing**: for traditional polishing of all surfaces in industry or workshops, where productivity and cost reductions are major stakes.

**EXPERT RANGE**

Suitable for highly demanding polishing operations, the polishing compounds in the Expert range offer exceptional polishing characteristics and guarantee a very high performance level.

**LUXOR®**
- High-end line of polishing compounds and buffing mops
- Complete range from preparation to mirror finish
- Fast results

**ESSENTIEL**
- Complete line of polishing compounds and buffing mops
- Excellent results, mirror finish
- Highly versatile on all metals

If you wish to receive our full catalog and our selection guides, please click here.
The ESSENTIEL compounds are widely recognized by the profession for their versatility and high performance. A short and complete line, ESSENTIEL is highly appreciated for its mirror finish results, obtained on all materials.

EXCELLENT RESULTS, MIRROR FINISH
- Very high-end raw materials
- Very high calibration precision
- Abrasive content greater than market standards
- Perfect mirror finish

HIGHLY VERSATILE
- Covers all high-end polishing operations
- Combination of different abrasives
