

LUXOR® Shine Super finishing Cream

LUXOR® Shine is the fruit of MERARD know-how in **super-finishing pastes**. It revives the shine of parts made of copper alloys or precious metals.

In **jewelry, watchmaking** and all other markets looking for **high gloss**, It's appreciated for its **high polishing efficiency**, its **working comfort** and its **economical ratio**.

- **Manual polishing** with LUXOR® Microfiber
- Highly concentrated in abrasives, **very economical**
- **Fast usage**
- No chemical alteration, **preserves the part**
- **100 ml**, ideal for shops, **after sales service** and small production units

LUXOR® Microfiber Wiping Cloth

LUXOR® Microfiber wiping cloth has been developed to **allow the complete removal of polishing paste residues** and to **revive the shine** of your parts on all precious metals and other delicate surfaces.

It is recommended for **jewelry, watchmaking**, medical industries and for all technical industries.

- Suitable for **precious metals and delicate surfaces**
- To use with LUXOR® Shine to **revive shine**
- **No «sponge effect»**
- **Washable at 40 ° C**
- **Do not create micro scratches**
- Ideal in **control phases and final wiping**
- **Great resistance to traction**
